## SUMMARY

---

Software Developer with a year of practice in Frontend looking for new professional opportunities in Frontend development. Got experience working with **HTML5, CSS3, Sass (SCSS), JavaScript, Typescript, React, and Bulma framework**. Eager to improve my developer skills and learn new frameworks (**Vue/Angular/React Native**). I have a basic knowledge of **SQL** (ORDER BY, LIMIT, DISTINCT, NULL, LIKE, BETWEEN, IN, WHERE, JOIN), and OOP. My productivity is high even if I work under strict deadlines. For example, I got my new profession as a FrontEnd developer in 1 year. My customer support background enhanced my problem-solving and communication skills. I have a great level of responsibility, and my work always meets the client's or company's requirements.
